(MUHP-1302)

Reference: 1) NRC Letter, S. Dembek to L.F. Liberatori Jr., "Safety Evaluation Related to Topical Report WCAP-14696, 'Westinghouse Owners Group Core Damage Assessment Guidance,' TAC NO. M97447," September 2, 1999.

This letter transmits twelve (12) copies of WCAP-14696-A, Rev 1, (Non-Proprietary), "Westinghouse Owners Group Core Damage Assessment Guidance." There is no proprietary version. This approved version, as signified by '-A,' is being transmitted in accordance with the procedures established in NUREG-0390. As such, WCAP-14696-A, incorporates the NRC Safety Evaluation Report (SER) and transmittal letter (Ref.. 1) which states that the revised Core Damage Assessment Guideline (CDAG) in Appendix A of WCAP-14696-A is an acceptable basis for meeting the NUREG-0737, II.B.3 requirement for a core damage assessment procedure.

The reports transmitted herewith each bear a Westinghouse copyright notice. The NRC is permitted to make the number of copies of the information contained in these reports which are necessary for its internal use in connection with generic and plant-specific reviews and approvals as well as the issuance, denial, amendment, transfer, renewal, modification, suspension, revocation, or violation of a license, permit, order, or regulation subject to the requirements of 10 CFR 2.790 regarding restrictions on public disclosure to the extent such information has been identified as proprietary by Westinghouse, copyright protection notwithstanding. Since this is a non-proprietary version, the NRC is permitted to make the number of copies beyond those necessary for its internal use which are necessary in order to have one copy available for public viewing in the appropriate docket files in the public document room in Washington, DC and in local public document rooms as may be required by NRC regulations if the number of copies submitted is insufficient for this purpose. Copies made by the NRC must include the copyright notice in all instances.
