Dear Sir:

I am enclosing a letter I rec'd recently from your department. It's time to get new clerical help. My letter or none of my friends in this area that rec'd. the same letter included any enclosures.

Your letter states there should be 4 of them. This is not the first time this agency has either neglected to send to the public the entire bit of information or conveniently forgot.

The public has a right to this information. We the taxpayers paid for this plant & probably will be stuck with it

forever. We do not need
anymore "in place" decommissioning.

Sincerely,

Mildred E Chelko
