Mr. R. P. Necci - Vice President  
Nuclear Oversight and Regulatory Affairs  
c/o Mr. David A. Smith  
Northeast Nuclear Energy Company  
P. O. Box 128  
Waterford, CT 06385

SUBJECT: CORRECTION TO ENVIRONMENTAL ASSESSMENT - MILLSTONE  
NUCLEAR GENERATING STATION, UNIT NO. 3 (TAC NO. MA5137)

Dear Mr. Necci:

Enclosed is a copy of a correction to the Environmental Assessment and Finding of No Significant Impact related to your application for an amendment dated March 19, 1999. The purpose of the amendment is to allow Millstone Unit No. 3 (MP3) to rerack its spent fuel pool to maintain full core reserve capability approaching the end of its operating license. The correction relates to when MP3 will no longer be capable of fully off-loading the core into the spent fuel pool. The environmental assessment, as noticed in the *Federal Register* (64 FR 48675) on September 7, 1999, indicated that MP3 would no longer be able to fully off-load the core after completion of the last refueling outage (RFO 6) that ended June 29, 1999. This was incorrect. As you indicated in your submittal, you will maintain full core off-load capability until the end of cycle 7. Cycle 7 ends with the completion of RFO 7 that is currently scheduled to start early in calendar year 2001. Correction of this error does not change the staff's conclusions reached in the original Environmental Assessment and Finding of No Significant Impact as noticed in the *Federal Register* (64 FR 48675).

We regret any inconvenience this error may have caused you. Should you have questions regarding the corrections, please contact me at (301) 415-1278. The correction to the Environmental Assessment is being forwarded to the Office of the Federal Register for publication.

Sincerely,

ORIGINAL SIGNED BY:
