Secretary, Attn: Rulemaking & Adjudication Staff
US Nuclear Regulatory
Washington, DC 20585

Dear Rulemaking & Adjudication Staff Members:

Please do not allow disposal of radioactive waste for recycling purposes. We do not believe it is in the interest of American (or foreign) citizens to allow sale of radioactive waste to scrap metal dealers for sale to the public in the form of recycled goods. This is a 3rd world type of action. We understand that the Department of Energy wants to dispose of radioactive waste by recycling it into consumer products. Don't we have enough cancer cases and illnesses now. Please help to protect our environment from this insane, insane and environmental danger.

Sincerely
W. Zurcher
