Secretary  
U. S. Nuclear Regulatory

OFFICE OF THE  
GENERAL COUNSEL  
ADJUTANT GENERAL

Dear Secretary:

Nuclear waste used in consumer products? This is an incredibly bad idea. Have you considered the idea that your children or grandchildren, as well as all of us (adults and children) could be exposed to life-long radiation and without any warning at all.

Native Americans said we should protect the planet up to the "seventh generation". Bad decisions such as nuclear waste spreading in such an irresponsible manner certainly doesn't promote such a good philosophy.

I understand it is already being done on a case-by-case basis (without warning labels) This should be stopped now!

Sincerely,  
Margaret Sawyer
