UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 7, 1999

Mr. Robert P. Powers, Senior Vice President
Indiana Michigan Power Company
Nuclear Generation Group
500 Circle Drive
Buchanan, MI 49107

SUBJECT: ISSUANCE OF AMENDMENTS - DONALD C. COOK NUCLEAR PLANT, UNITS 1 AND 2, RE: MOVEMENT OF STEAM GENERATOR SECTIONS IN THE AUXILIARY BUILDING FOR STEAM GENERATOR REPLACEMENT PROJECT (TAC NOS. MA6665 AND MA6666)

Dear Mr. Powers:

The U.S. Nuclear Regulatory Commission has issued the enclosed Amendment No. 233 to Facility Operating License No. DPR-58 and Amendment No. 216 to Facility Operating License No. DPR-74 for the Donald C. Cook Nuclear Plant, Units 1 and 2. The amendments consist of changes to the Technical Specifications in response to your application dated September 23, 1999, as supplemented October 11, 1999. Following initial review of your application, the staff issued a request for additional information on October 26, 1999, which you responded to by letter dated November 10, 1999.

The amendments provide approval to move steam generator sections through the auxiliary building and to disengage crane travel interlocks, and provide relief from performance of Technical Specification Surveillance Requirement 4.9.7.1. The loads to be moved are in support of the Unit 1 Steam Generator Replacement Project. Since the Unit 1 steam generator sections are heavier than those evaluated in the Updated Final Safety Analysis Report for the auxiliary building crane over the planned load path, your staff concluded that the proposed activity may increase the probability of occurrence or the consequences of an accident and requested prior NRC approval in accordance with 10 CFR 50.59.
