SUBJ: AEC Form 313, Application for Byproduct Material
License

The Chief of the Radioisotope Service requests that the enclosed AEC Form 313, Application for Byproduct Material License for Carbon-14, be approved and forwarded to the Atomic Energy Commission. This application is to amend our present license No. 4-181-3, which now shows a maximum possession limit of 30 mc. to a maximum possession limit of 350 mc. The project has been approved by the Hospital Isotope Committee.
