Subject: RECEIPT OF PRECEPTOR STATEMENT

Dear Dr. Perry:

We have received a completed preceptor statement form submitted in your behalf by Dr. Franz K. Bauer.

Should you desire to obtain and use byproduct material, we would appreciate your submitting an application on the enclosed copies of Form AEC-313 and Supplement A, Form AEC-313a. You may include more than one byproduct material on your application, if you desire. It will not be necessary for you to complete Page 3 of Supplement A, Form AEC-313a, since this information is contained in the preceptor statement.

There will be a representative of the Isotopes Extension at the Veterans Administration Hospital during the week of October 1, 1956. You may wish to speak to him regarding licensing procedures. Please be assured of our desire to be of aid in licensing of byproduct material.

Very truly yours,

Cecil R. Buchanan, Assistant Chief
Byproduct Licensing Branch
Isotopes Extension
Division of Civilian Application
