COMMENTS:

I approve the NRC's amendment of its regulations to certify the AP600 standard plant design. I also approve the staff's recommendations (1) to publish the Final Rule for the AP600 Design Certification in the Federal Register; (2) to approve the final environmental assessment; and (3) to certify that the rule, if promulgated, will not have a negative economic impact on a substantial number of small entities. I concur in Commissioner McGaffigan's commendation of the staff for their accomplishments in the AP600 design certification review.
