OFFICE
ADMINISTRATIVE

Secretary
U. S. Nuclear Regulatory Commission
Washington, DC 20555

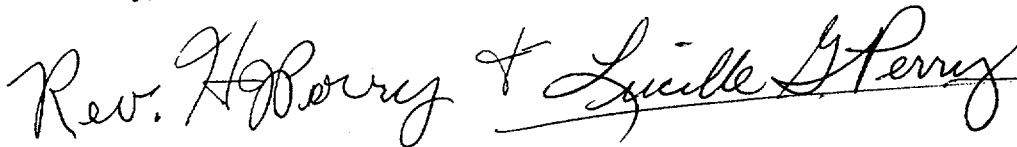

Attn: Rulemaking and Adjudication Staff

Gentlemen,

It is our strong feeling that **NO** amount of radioactive waste should be released for recycling into consumer products.

It is further suggested that waste of nuclear nature be sent toward the sun on our rocket engines. There is no **NO** safe place on earth for such materials.

Sincerely,

Rev. H. J. and Lucille G. Perry
