

**PROGRAM MANAGEMENT INFORMATION: TECHNICAL CONFERENCING FORUM -  
 REQUEST FOR COMMENTS ON PRE-DECISIONAL DRAFT FINANCIAL ASSURANCE  
 AMENDMENTS FOR MATERIALS LICENSEES (SP-99-078)**

In All Agreement States letters SP-97-084, dated December 9, 1997, and SP-99-019, dated March 26, 1999, we described that the Nuclear Regulatory Commission's (NRC) primary means of distribution of pre-decisional and other documents of interest to Agreement States is the electronic subsystem that has been established for sole use by the Agreement States. This subsystem is under the Technical Conference Forum (TCF) of the NRC Home Page. The TCF subsystem can only be accessed by the Agreement States having an unique user name and password, which were last updated via All Agreement States letter SP-97-027.

The Office of Nuclear Material Safety and Safeguards (NMSS) has uploaded to the TCF an NRC draft rulemaking plan on Financial Assurance Amendments for Materials Licensees. Your review and comment is invited on the draft by **January 7, 2000**. Please provide comments either through the TCF or to the individual named below.

Due to its pre-decisional nature, this document is exempt from public disclosure under NRC rules. We request that you limit distribution to your staff and not release the document publicly. If this document is released, please inform **me or the individual named below within 24 hours**. The Draft Temporary Instruction can be accessed through the TCF subsystem at <http://techconf.llnl.gov/cgi-states/topics>, using your appropriate user name and password.

This information request has been approved by OMB 3150-0029, expiration 04/30/2001. The estimated burden per response to comply with this voluntary collection request is 3 hours. Forward any comments regarding the burden estimate to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to the Paperwork Reduction Project (3150-0189), Office of Management and Budget, Washington, DC 20503. If a document does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information.

Thank you for your attention to this matter. If you have any questions regarding this letter, please contact Mr. Clark Prichard, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 415-6203 or email: (CWP@NRC.GOV)
