**BROWNS FERRY NUCLEAR PLANT (BFN) - UNITS 1, 2, AND 3 -
UPDATED FINAL SAFETY ANALYSIS REPORT (UFSAR), AMENDMENT 18**

Pursuant to the requirements of 10 CFR 50.71(e)(4), TVA is submitting Amendment 18 of the BFN UFSAR. Amendment 18 is a six month update following the Unit 2 Cycle 10 refueling outage that completed May 8, 1999. The previous update of the BFN UFSAR, Amendment 17, was submitted by TVA letter dated August 30, 1999. Amendment 18 reflects changes to the site that occurred between the period of March 15, 1999, to August 20, 1999.

On October 1, 1999, TVA submitted an exception request in accordance with 10 CFR 50.4(c) that would allow submission of a reduced number of paper copies of the BFN UFSAR. TVA's proposed alternative provided for submission of CD-ROM versions of the BFN UFSAR. NRC approved TVA's request by letter dated October 14, 1999, and stipulated that TVA should provide the original, one paper copy, and four CD-ROM copies to the NRC Document Control Desk, and one CD-ROM copy each to the appropriate Regional Administrator and NRC Senior Resident Inspector. The enclosure to this letter provides the original, one paper copy, and four CD-ROM copies of Amendment 18 of the BFN UFSAR.
