**Amendment No. 123**

## **1.0 OBJECTIVES OF THE ENVIRONMENTAL PROTECTION PLAN**

The Environmental Protection Plan (EPP) is to provide for protection of non-radiological environmental values during operation of the nuclear facility. The principal objectives of the EPP are as follows:

- (a) Verify that the Plant is operated in an environmentally acceptable manner, as established by the Final Environmental Statement-Operating License Stage\* (FES-OL) and other NRC environmental impact assessments.**
- (b) Coordinate NRC requirements and maintain consistency with other Federal, State, and local requirements for environmental protection.**
- (c) Keep NRC informed of the environmental effects of facility construction and operation and of action taken to control those effects.**

Environmental concerns identified in the FES-OL which relate to water quality matters are regulated by way of the licensee's NPDES permit.
