Subject: Recycling Nuclear Waste

'99 DEC 17 A9:12

This is totally unacceptable and should not be taken lightly. The public should be made more aware and be able to have a say in the matter. Recycling nuclear waste puts the public at unnecessary risk. Please extend the comment period on the proposal until September of 2000 so that the public has a chance to express its opinions and debate this important issue. Thank you for your time.
