Secretary  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

OFFICE  
ADMINISTRATIVE

Dear Mr. Secretary,

I would like to voice my strong concern about the recycling of radioactive materials into consumer goods.

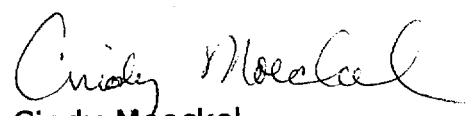

At a minimum, such products should bear a disclosure label.

I think it is clear how consumers would respond to products with such a label...which should make it clear that this is not a good practice.

Please help me reduce the levels of dangerous radiation to which my family and I are exposed. Do not enable unwitting exposure.

Thank you for your attention.

Sincerely,

Cindy Moeckel
