DOCKET NUMBER
PROPOSED RULE **PR** 20
(64FR35090)

NRC Chairman Richard Meserve
Nuclear Regulatory Commission
Washington, DC 20555

Attention: Rulemaking and Adjudications Staff

Dear Chairman Meserve,

I am writing to urge you most strongly not to allow any changes in the regulatory policies which would allow increases in the release of radioactive materials. I am very concerned about the environmental and health ramifications of allowing radioactive materials to be recycled into consumer goods.

I believe it is the responsibility of your agency to insure that the producers of these wastes and not the public assume liability for these dangerous materials.

It is thanks to Nukewatch and the Progressive Foundation that this issue has been brought to the attention of many Americans who would otherwise have been ignorant of what can only be interpreted as complicity with the metals industry.

Sincerely yours,

Freya Grand
