We call on the NRC to serve the interests of the public instead of the nuclear industry and
#1 prohibit the release of radioactive materials into commerce, landfills and incinerators
#2 identify, track and recapture the radioactive waste that has already been released from nuclear power and weapons facilities by federal and state regulators
#3 give the public at least 8 more months to comment.

Joy's Mission Statement

There are two primary forces at work in our Universe:
LOVE and FEAR. Love is expansion and union: ultimately, being at One with All and Everything. It is the movement toward God/Goddess.
Fear is contraction and divisiveness. It separates us from ourselves and from All and Everything. It is the movement away from God/Goddess.
Fear/guilt/punishment (and their sister, shame) are the authors of all contractions and thus, all illnesses of body/mind/spirit.
My intention is to help alleviate fear from this planet, and to replace it with love.

It's our LOVE for one another
that makes it All Work!
