Dear Mr. Mosley,

The Nuclear Regulatory Commission (NRC) is requesting that the enclosed "Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing," for River Bend Station, Unit 1 (Docket No. 50-458), be published on Tuesday, December 21, 1999. Expedited publication is requested because Entergy Operations, Inc., the licensee for River Bend Station, needs to begin critical maintenance prior to expiration of the 30-day comment period that follows the routine biweekly publication of NRC notices in the *Federal Register*. Expedited publication will also permit the normal 30-day public comment period prior to issuance of the proposed license amendment. Your assistance will be greatly appreciated.

Sincerely,

/s/
