Secretary
U.S. Nuclear Regulatory
Washington, D.C. 20555

Dear Secretary:

I am writing to you because I am concerned about radioactive materials being sold as scrap metal and then being manufactured into other products that will be sold to consumers who will not know that the product is radioactive.

This is the height of irresponsibility! Aren't there enough Americans with cancer; does the government need to create more?

Please stop this practice at once.

Sincerely yours,

Mary Dolores Carosi
