In the Matter of
Private Fuel Storage L.L.C.
(Independent Spent Fuel Storage Installation)
Docket No. 72-22-ISFSI

Dear Administrative Judges:

It has come to my attention that a correction should be made to the Staff's statement of position concerning Contention Utah S, filed as part of the "NRC Staff's Statement of Its Position Concerning Group I - II Contentions," dated December 15, 1999. On page 17 of that document, the first sentence of the last paragraph should be deleted, so that the paragraph reads in full as follows:

The Staff concludes that PFS has provided reasonable assurance that it will be able to fund this final phase of the project through meeting the requirements of the regulations cited herein.

I trust that this correction does not result in any inconvenience to the Licensing Board or parties.

Sincerely,

Sherwin E. Turk
