We do not want nuclear power and weapons wastes "released," "cleared," "deregulated," "exempted," "generally licensed," designated "de minimis," "unimportant" or BRC -- below regulatory concern -- or by any other means allowed out of nuclear facilities and into the marketplace or the environment, at any level.

I will fight this. No matter what level the NRC sets for allowable radiation risk, it is too difficult to measure, verify or enforce. Stop this silliness now.
