Subject: Radioactive waste in products

DOCKETED
USFRC

'99 DEC 20 P4:08

Richard Meserve:

I am very concerned about the possibility that you would allow radioactive waste materials to be used in common household products. How dare you take these chances with my health and my family's health? I strenuously object to this proposal. I also object to the extremely short comment period you have allowed. I plan to write my congresswoman and senators about this. I sincerely hope you reconsider this horrible idea.
