ATTORNEY: Rulemaking and Adjudications Staff, U.S. D.C.

Nuclear Regulatory Commission
Chairman Gerald Meserve
Washington DC 20555

DOCKET NUMBER
PROPOSED RULE P120
(64FR35090)

Dear Mr. Meserve,

I have just read & please to release

radioactive materials from nuclear facilities
to the scrap metal industry from which
it would reach into public and private
homes without people's knowledge or
consent.

This depicts opposition by the
Steel Manufacturers Association.

I appreciate that most of this

material has been safeguarded and
relocated in the past and consider

it extremely important to keep
it safeguarded and relocated.

Sincerely,

Dotie Brown
