DOCKET NUMBER  
PROPOSED RULE **PR 20**  
(64FR35090)

OFFICE OF  
REGULATORY  
ADJUSTMENT

December 20, 1999

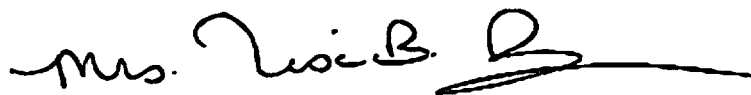

VIA FACSIMILE - (301) 415-1101

Chairman Richard Meserve  
Attn: Rule-making and Adjudications Staff  
U.S. NRC  
Washington, DC 20555

Ladies and Gentlemen:

It has recently been brought to my attention that the NRC and DOE are, in effect, conspiring to sell radioactive metals to the scrap metal industry. First of all, this is **TOTALLY UNACCEPTABLE!!** Secondly, the deadline of December 22<sup>nd</sup> for response is far too short a time for public comment. How is it that this has not been widely publicized? I realize the amount of radioactivity will be minimal, but ANY radioactivity is too much, especially when it will be introduced into our homes through products produced from the contaminated metals and scrap which will be used constantly in our daily lives.

On behalf of my family and myself and as a citizen and taxpayer, I demand that this plan be reconsidered.
