Amend No. 07
11003946

Attention: Ms. Betty Wright,
Export/Import Licensing Officer

Reference: NRC License No. XU08643, Amendment No. 06

Subject: Request to Extend NRC License No. XU08643 through 31 Dec 2001.

Dear Ms. Wright:

As discussed, this mailing requests an amendment to the Starmet NMI export license (NRC License No. XU08643, Amendment No. 06), extending the current expiration date from 31 December 1999 to 31 December 2001.

To date, we have shipped approximately 104,150 Kgs against the current authorization limit of 500,000 kilograms of depleted uranium (DU). We do not anticipate any need to extend or increase this limit.

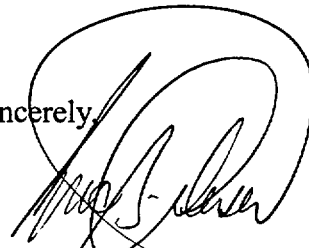

Enclosed is a check in the amount of \$210, as fee payment for the specified amendment.

I appreciate your assistance in considering this request; if you have any questions or comments, please contact me at (508)369-5410, ext. 348.
