March 30, 2000
GO2-00-059

Docket No. 50-397

U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Gentlemen:

Subject: **WNP-2, OPERATING LICENSE NPF-21
MODIFICATION OF COMMITMENT TO REVIEW
SAFETY CLASSIFICATION OF KEEP FILL PUMP**

Reference: Letter GO2-00-021, dated February 2, 2000, RL Webring (Energy Northwest) to NRC, "NRC Inspection Report 99-13, Response to Notice of Violation"

In the referenced letter, Energy Northwest committed to finalize the safety classification of the Reactor Core Isolation Cooling keep fill pump. This commitment included development of a new Component Classification Evaluation Report and identification of follow-on actions resulting from any permanent change in safety classification.

The referenced letter stated that these actions would be completed by March 31, 2000. The completion date for this commitment is being extended to May 9, 2000 because further analysis is required to complete these actions.

Should you have any questions or require additional information, please contact PJ Inserra at (509) 377-4147.

Respectfully,

DW Coleman
