NRC'S ADVISORY COMMITTEE ON NUCLEAR WASTE  
TO MEET JULY 26-28

The Nuclear Regulatory Commission's Advisory Committee on Nuclear Waste (ACNW) has scheduled a technical meeting July 26-28 in Rockville, Maryland.

The meeting, which is open to the public, will begin at 8:30 a.m. each day in Room T2B3, 11545 Rockville Pike.

Although meetings of the ACNW are open, they are not part of the NRC's public hearing process. The ACNW was established by the Commission in March 1988 to advise it on all aspects of nuclear waste management. While anyone may attend the meeting the committee will consider only oral or written statements arranged in advance and limited to specific matters set forth in a Notice of Meeting published in the Federal Register on July 7.

Discussions at the meeting will include:

--Disposal of radioactive waste in both the United States and Germany;

--An update on efforts by the NRC staff to streamline the Site Decommissioning Management Plan process;

--Efforts by the Department of Energy to integrate investigations into hydrology, geology, geochemistry and performance assessment for the proposed high-level waste site at Yucca Mountain in Nevada; and

--Preparation of proposed ACNW reports.

Persons wishing to submit a statement regarding an agenda subject may do so by providing a readily reproducible copy to the committee at the beginning of the meeting or by mailing it in advance to the Executive Director, Advisory Committee on Nuclear Waste, Nuclear Regulatory Commission, Washington, D.C. 20555.

(ACNW schedules are subject to change. Anyone planning to attend should confirm the schedule the day before the meeting by calling 301/415-7360.)
