SUBJECT: RISK ANALYSTS INFORMATION MEETING NOTICE

Dear Mr. Farruk:

An information meeting for the risk analysts in Region II will be held in the NRC Region II offices June 20 and 21, 2000. Its purpose is to encourage the exchange of information on topics of current interest to the risk community. Some topics to be discussed are the new Significance Determination Process as it relates to risk analysts, discussions on the new A4 of the Maintenance Rule, and the new proposed PRA standard. Open discussion between the participants will be encouraged.

The Region II Senior Resident Analysts have discussed this meeting with your staff. The focus of the meeting will be the sharing of technical information of interest to risk analysts. We hope to have the Region II licensees send members of their risk staff to participate. A detailed schedule for the meeting will be sent later to those parties interested in participating. If you or your staff wish to participate, or if you have a topic of interest that you would like to present or to discuss, please contact Rudy Bernhard at 404-562-4618 or at rhb@nrc.gov.

Sincerely,

\RA\
