Dear Mr. ~~Brach~~ *Bill*:

Regional Director  
Michael H. McCabe

On behalf of the Midwestern High-Level Radioactive Waste Committee, thank you for coming to Minneapolis to brief the committee on the activities of the NRC's Spent Fuel Project Office. The committee last heard an update from the NRC back in December 1997, at a joint meeting of all the regional groups. As you well know, a number of significant developments have occurred since that time. We appreciate your willingness to spend so much time on the agenda to bring everyone up to speed.

The committee routinely invites representatives of the Federal Railroad Administration and the Federal Motor Carrier Safety Administration to attend its meetings and, when appropriate provide an update on recent activities. I hope you will consider either attending future committee meetings or sending someone else to represent the NRC. Toward this end, I will add your name to our distribution list for meeting announcements.
