Dr. Thomas B. Cochran, Director  
Nuclear Program  
Natural Resources Defense Council  
1200 New York Avenue  
Suite 400  
Washington, DC 20005

Dear Dr. Cochran:

I am writing to inform you that the U.S. Nuclear Regulatory Commission (NRC) has completed review of the petition you submitted on July 28, 1998. As noted in our August 27, 1998 letter to you, the NRC staff indicated it would wait to respond to the petition until the NRC staff had completed their technical review of the U.S. Department of Energy's (DOE) methodology for classification of residual tank waste at Savannah River (SR). The technical review has been completed. It resulted in a letter and attached Technical Evaluation Report (letter from W. Kane/NRC to R. Schepens/DOE-SR, "Savannah River Site High Level Waste Tank Closure: Classification of Residual Tank Waste as Incidental," dated June 30, 2000).

The response to your petition is enclosed. We believe this and the recent April 10, 2000, letter respond to your requests. Please contact Jennifer Davis at (301) 415-5874 or James Lieberman at (301) 415-2746 if you have any questions.

Sincerely,

**/RA/**

William F. Kane, Director  
Office of Nuclear Material Safety  
and Safeguards

Enclosure: Response to petition
