Gloria Bennington
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Ms. Bennington:

This is to request renewal of our highway route plan for the shipment of spent fuel from our facility in Cambridge, MA to the Savannah River site in Aiken, SC. Enclosed is a copy of the plan as approved in 1998, as well as a list of phone number changes.

Please let me know if I can supply any further information.

Sincerely,

Thomas Newton
Reactor Engineer
MIT Research Reactor
