Docket No. 71-6078
September 7, 2000

Mr. William Brach, Director
Spent Fuel Project Office
Office of Nuclear Material Safety and Safeguards
U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555-0001

**Subject: Request for Renewal of Certificate of Compliance No. 6078
for the Model No. 927A1 and 927C1 Packages**

Dear Mr. Brach:

Revision No. 27 of the subject certificate, issued May 10, 2000 has an expiration date of October 31, 2000. The purpose of this letter is to request that the certificate be renewed prior to the expiration date.

CE Nuclear Power uses the Model 927 packages quite frequently for shipping new fuel assemblies to our customers. The continuity of the certificate validity is therefore very important to our business. The application for this certificate was extensively revised in 1998 and no further changes are necessary at this time.

Thank you for your consideration of this request. Please call me at (636) 937-4691, extension 399, if you have any questions.

Sincerely,

CE Nuclear Power LLC
