Subject: CNWRA Program Manager's Periodic Report for Period 2-FY1990
(Proprietary Cost Data)

Dear Mr. Funches:

Pursuant to Section F.1.5 of the above referenced contract, enclosed herewith is the Proprietary Cost portion of our "Program Manager's Periodic Report," which reflects the activities of the Center from October 28, 1989, through November 24, 1989 (Attachment A). The "Total Contract Amount" figure in each report, i.e., FIN, Element, Task, states the applicable amount of new funds authorized for the Center through Period 2 of FY90. Monies previously authorized and distributed by FIN, and Element/Projects therein, are not included in such "Total Contract Amount" figures. These monies appear in the "Element Financial Status" section of text of the subject report which was transmitted under separate cover.

Attachment A is separated by number in accordance with the Center Work Breakdown Structure (Attachment B). This "Project Status Report" shows only those costs incurred against work breakdown structure numbers stated in this report.

Separately, you will find the report (old element/subelement/project numbers) for all non-labor cost expended during the initial period of FY90 (Attachment C). These costs are reflective of those amounts that have been incurred in the previous but paid in the current fiscal year.

The text portion was transmitted under separate cover.

Very truly yours,
