Please send me a copy of the Draft Environmental Impact Statement for the PFS Goshute Nuclear Dump Proposal. Also, make copies available to everyone who request them.

Extend the comment deadline by at least 90 days and set up more public hearings in Utah, as well as in the cities where the spent fuel originates and cities along the transportation routes. You must make all people involved in this process aware of what is happening. Any other plan is simply irresponsible. We will live with this decision to store the nuclear waste for thousands of years. Attempting to speed up this process is extremely irresponsible and deceitful.
