ATTN: Ms. Sharon D. Mearse  
Division of Contracts and Property Management  
7920 Norfolk Ave. (P-902)  
Bethesda, MD 20814

Subject: Submittal of Letter Report Entitled, "An Evaluation of Technical Computing Requirements in Geosciences and Systems Performance, U. S. NRC (DHLWM and WMB RES) and Center for Nuclear Waste and Regulatory Analyses" to satisfy Geologic Setting Milestone 3702-002-462

Reference: May 24, 1990 Letter of Latz to Mearse

Dear Ms. Mearse:

This letter serves to transmit the subject Major Milestone letter report which is submitted in fulfillment of the requirements for Activity Number 3702-002-462 under the Geologic Setting Program Element, in accordance with the Center FY90-91 Operations Plan for the Division of High Level Waste Management. Please note that the referenced letter from the Center on May 24, 1990 requested a delay of this deliverable from May 25, 1990 to June 29, 1990, and a change for a major to intermediate deliverable status. Verbal reply from the NRC in response to that request accepted the change in date but maintained the milestone status.

It is the understanding of John Russell that the subject report will be of immediate use by the NRC's Task Group for Evaluation of DHLWM Computer and Software Needs which is chaired by Dr. Don Chery.

Please contact John Russell at 512/522-5183, or Steve Young at 512/522-5247 if you have any questions concerning the subject report.
