Ms. Mary Ellen Giampaoli
P.O. Box 127
Blue Diamond, NV 89004

SUBJECT: PRIVATE FUEL STORAGE FACILITY

Dear Ms. Giampaoli:

It is my understanding that you recently requested to be put on the U.S. Nuclear Regulatory Commission's (NRC's) "mailing list" for correspondence on the proposed Private Fuel Storage Facility (PFSF) to be constructed on the Reservation of the Skull Valley Band of Goshute Indians. The Spent Fuel Project Office does not maintain such a list, per se. While we do provide copies of relevant information to parties to the licensing proceeding for Private Fuel Storage, Limited Liability Company's (PFS's) application for a license to construct and operate the proposed facility, we do not maintain a general mailing list. All docketed materials are available, however, through the NRC's "Agencywide Documents Access and Management System" (ADAMS). ADAMS is accessible from any computer with an Internet capability by going to the Public Electronic Reading Room on NRC's website at <http://www.nrc.gov>. There is an ADAMS user's guide there that can be downloaded and printed.

I am enclosing a copy of the PFS Safety Evaluation Report (SER) which documents the NRC staff's review and evaluation of the PFS license application. Please let me know if you would also be interested in receiving a paper copy of the Final Environmental Impact Statement for PFS. I can be reached at (301) 415-8518.

Sincerely,
/RA/ original signed by /s/
