SUBJECT: REQUEST FOR CONCURRENCE ON ELIGIBILITY DETERMINATIONS FOR
THE ARCHEOLOGICAL AND HISTORIC SITES IDENTIFIED WITHIN THE
AREA OF POTENTIAL EFFECT FOR THE PROPOSED PRIVATE FUEL
STORAGE FACILITY

Dear Mr. Banta:

In May and June of 1999 and in June 2000, a Private Fuel Storage (PFS) contractor, P-III Associates, performed a Class III cultural resources inventory of the area of potential effect (APE) in Skull Valley, Utah. All portions of the APE were included in the study area. At the request of the Bureau of Land Management (BLM), PFS will provide you with a copy of the report documenting the cultural resource inventory. For all sites within the APE, the report includes a recommendation with regard to each site's eligibility for inclusion in the National Register of Historic Places. The Federal agencies, the Nuclear Regulatory Commission (NRC), the BLM, the Bureau of Indian Affairs (BIA), and the Surface Transportation Board (STB), have reviewed the report and concur with the eligibility recommendations for all archeological and historic sites within the APE. Enclosed is a list of sites and their eligibility recommendation. The Federal agencies request your concurrence, within 30 days, on the eligibility recommendations in the report.

We are meeting with consulting parties to discuss the eligibility recommendations included in the report and potential mitigation measures for anticipated adverse impacts to the cultural resources within the APE. A meeting was held with the Utah Trails Organizations on July 27, 2000. During that meeting, several members of the Utah Trails Organizations provided input on possible mitigation measures for the areas adversely impacted by the PFS proposal. However, if after reviewing this report, you have additional information you would like to provide, please contact one of the four Federal agencies. After meeting with the consulting parties, we will prepare a treatment plan and Memorandum of Agreement (MOA) for your review and concurrence.
