Emergency Plan Implementing Procedure Update

Dear Commissioners and Staff:

In accordance with Section V, "Implementing Procedures," of 10 CFR 50, Appendix E, enclosed is an update to the emergency plan implementing procedures for Diablo Canyon Power Plant, Units 1 and 2.

As provided under 10 CFR 50.54(q), the changes in this update do not decrease the effectiveness of the emergency plan and, therefore, have been made without prior NRC approval. The plan, as changed, continues to meet the standards of 10 CFR 50.47(b) and 10 CFR 50, Appendix E.

This update contains privacy/proprietary information that has been bracketed in accordance with NRC Generic Letter 81-27.

The enclosed EP G-3, "Notification of Off-Site Agencies and Emergency Response Organization Personnel," Revision 33, was previously submitted in PG&E Letter DCL-00-087, dated June 5, 2000, as Revision 33XPR. The enclosed EP G-3, Revision 33, formally incorporates that change on November 8, 2000, and bears the effective date of May 5, 2000, to reflect the date of Revision 33XPR.

If there are any questions regarding this update, please contact Mr. Mark Lemke of my staff at (805) 545-4787.

Sincerely,

 for Jim Becker
