Reference: U.S. NRC License No.: SUB-1305
Docket No.: 040-08621

Gentlemen:

Aptec-NRC Inc. request the termination of our U.S. NRC License number SUB-1305.

As can be seen in the attached NRC Form 314, all materials possessed under the reference license have been transferred to Starmet Corporation, 2229 Main Street, Concord, Massachusetts under Starmet's U.S.NRC License Number SMB-179. Please note that the amount transferred (5,982 pounds (2,713 kg)) is the actual amount that we possessed. The 11,400 kg as listed in Condition 8A of the reference license was an estimate based on a contract our company had many years ago.

Also, under Section B2 of NRC Form 314, a radiation survey was not conducted by us to confirm the absence of licensed radioactive materials because the material possessed under U.S. NRC License number SUB-1305 was stored in our radiation storage facility, which contains other radioactive sources possessed under our U.S. NRC License 37-02401-01.

Should you have any questions or desire any additional information, please get in touch with the undersigned or the Radiation Safety Officer, Mr. T.W. Schwager, at 215-343-5900, extension 275.

Sincerely,
Aptec-NRC Inc.

Ed Zieba
President
