B/S

Indian Point Energy Center Status Report

June 20, 2006

Operational Status

IP2 is currently at 100% reactor power; the unit has been on line for 33 days and Unit 3 is operating at 100% reactor power and has been on-line for 259 days.

Vacuum Drilling for New Monitoring Wells

Entergy is drilling 12 new wells in the next phase of the ground water investigation. These wells are located near Unit 1 to help characterize the radioactivity associated with the Unit 1 spent fuel pool. The picture at left shows a vacuum drill being used to remove the first 5-7 feet before a drill rig with a hard tipped bit is used for the subsequent depth. Using the vacuum drill techniques helps reduce the potential to damage underground service lines.

NRC Commissioner Jaczko Sworn In

Gregory Jaczko was formally sworn into as NRC Commissioner earlier this week by Chairman Nils Diaz in a ceremony at NRC headquarters in Rockville, Maryland, the NRC said today. Jaczko has served since January 2005 as a recess appointment to the commission, and was confirmed last month by the Senate to serve his full term which ends June 30, 2008. Commissioner Jaczko is shown at right during a recent visit to Indian Point.

Educational Outreach

Entergy Nuclear Northeast provides customized outreach education programs for schools, youth groups, and civic organizations. The topics we cover include Emergency Planning, Understanding Radiation, Nuclear Fuel and a general overview of the operations of Indian Point Energy Center. If you would like a brochure or are interested in scheduling a program, contact IPEC Communications at 914-271-7441.

If you have any questions or need clarification of the information provided, please contact Kathy McMullin, manager of communications, Indian Point Energy Center, at 914-271-7132.
