U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

Limerick Generating Station, Unit 1
Facility Operating License No. NPF-39
NRC Docket No. 50-352

Subject: Extension of Due Date to Respond to Request for Additional Information
Regarding Status of Decommissioning Funding Assurance

- References:**
1. Letter from Patrick R. Simpson (Exelon Generation Company, LLC) to U. S. NRC, "2011 Report on Status of Decommissioning Funding for Reactors," dated March 31, 2011
 2. Letter from Peter Bamford (U. S. NRC) to Michael J. Pacilio (Exelon Generation Company, LLC), "Limerick Generating Station, Unit No. 1 - Request for Additional Information Regarding Status of Decommissioning Funding Assurance, (TAC No. ME5497)" dated January 11, 2012

In Reference 2, the NRC requested additional information regarding the decommissioning funding assurance status for Limerick Generating Station, Unit 1, submitted by Exelon Generation Company, LLC (EGC) in Reference 1. On February 9, 2012, the NRC (P. Bamford) in response to EGC's (P. Simpson) verbal request extended the due date for the response to February 24, 2012.

As a result of EGC's re-evaluation of the approach described in Reference 1 and the desire to resolve this issue in an expedited and definitive manner, additional time to respond is required to finalize the resultant plan and schedule.

There are no new regulatory commitments made in this letter.

If you have any questions about this letter, please contact me at (630) 657-2823.

Respectfully,

Patrick R. Simpson
Manager - Licensing
Exelon Generation Company, LLC
