Jim - In case we have not, I suggest you chat with the other steering committee members about this pending memo. Particularly since we are citing the steering committee as having agreed to not reporting the 0 to 100 miles. I can stop by to discuss more if you need. Hopefully the other steering committee members have not heard back from the EDO's office about this yet.

**Subject:** RE: DRAFT SOARCA Commission Memo

Hi All,

I just finished discussions with the Chairman's TA, M. Marshall, who shared that based on discussions with the Chairman, their view is that incorporation of peer review insights is within the SRM direction.

Therefore, I am suggesting that we go back to the original information memo rather than a voting memo with a signature at the office level (vs. the EDO).

Thanks for your flexibility on this,

Kathleen;

I understand you plan to walk the Commission floors to inform the appropriate staffs about this upcoming memo. Please let me know when this is done. Meanwhile, the document is undergoing technical editing and should be at the RES front office for review/signature shortly. We'll keep you aware of its status.

**Importance:** High

Kathleen,

Per your request, here is the draft version of the SOARCA Update Commission Memo. It is being put into concurrence in RES now.

Thank you,

Emily
