Subject: Request scheduling of a conference call with Site VP Re: Thermal Conductivity Degradation (TCD) Issue

This email message corresponds to a voicemail message left for Jack Gadzala on Friday, February 10, 2012, at approx 5 PM ET.

The NRC seeks to schedule a conference call, collectively, with all plants affected by the thermal conductivity degradation (TCD) issue. The intended participants in the call are the Site Vice Presidents or their designees.

The purpose of the call is to:

- Discuss the thermal conductivity degradation issue, Re: Information Notice 2011-21 (ADAMS Accession No. ML113430785 dated December 13, 2011);
- Provide an update since the December 13, 2011 call with you; and
- Discuss the NRC's path forward for resolution.

At this time we are seeking to confirm if your Site Vice President or his designee can support either or both of two opportunities for the conference call:

- 1st choice: 3:00-4:00 pm ET on Tuesday, February 14, 2012
- 2nd choice: 9:00-10:00 am ET on Wednesday, February 15, 2012

As soon as practical, please confirm availability of your Site Vice President or his designee for either or both of these conference call choices.

Please contact me if you have any questions.
