Subject: PUBLIC VERSION - Final RAI 335 SFPT 6141
Attachments: FINAL RAI 335 SFPT 6141.doc

Paul,

This is a public version of the RAI. The NON-PUBLIC version is being issued separately

Attached please find the subject request for additional information (RAI) on your LOLA submission. The draft of this RAI was sent to you on January 9, 2012. A clarification phone call on this RAI, requested by UniStar, was held on January 19, 2012. Minor changes to several draft RAI questions were discussed during the clarification call. These changes have been incorporated in the attached version of the RAI.

The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a schedule date for submitting your technically correct and complete response will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the review schedule of the applicable FSAR Chapter.

Your response letter should also include a statement confirming that the response does or does not contain any sensitive or proprietary information.

Note: The Document "RAI LOLA_Rev.1" referenced in the RAI questions is a NON-PUBLIC document since it contains sensitive security-related information. It is therefore not attached to this email message.

Thanks.
