Re: NRC License 07-12153-02  
Docket No. 03001303  
Mail Control No. 576817

Dear Ms. Weidner:

The following information is in reply to your question regarding my request to delete Core Oncology, Inc. Model I-125 SL 125Iodine brachytherapy sources from this license. The last patient implanted with these sources was treated on September 08, 2008. There was one source left over from this procedure that was held for decay-in-storage and discarded on March 10, 2011 after being held for a period of fifteen half-lives.

If you have any questions, or need any further information, please contact me at either of the numbers listed above. I can also be reached at [jsolge@christianacare.org](mailto:jsolge@christianacare.org).

Thank you very much.

Sincerely,

Joseph F. Solge, Jr.
