

UNITED STATES NUCLEAR REGULATORY COMMISSION

REGION III 2443 WARRENVILLE ROAD, SUITE 210 LISLE, IL 60532-4352

February 16, 2012

EA-11-203

Mr. Mark A. Schimmel Site Vice President Prairie Island Nuclear Generating Plant Northern States Power Company, Minnesota 1717 Wakonade Drive East Welch. MN 55089

SUBJECT: FINAL SIGNIFICANCE DETERMINATION OF A SECURITY-RELATED

GREATER THAN GREEN FINDING WITH ASSESSMENT FOLLOWUP

AND NOTICE OF VIOLATION; NRC INSPECTION REPORT

NOS. 05000282/2011408; 05000306/2011408 PRAIRIE ISLAND NUCLEAR GENERATING PLANT

Dear Mr. Schimmel:

This letter provides you the final significance determination of the preliminary Greater than Green finding discussed in our previous communication dated December 7, 2011, which included U.S. Nuclear Regulatory Commission (NRC) inspection report Nos. 05000282/2011405(DRS); 05000306/2011405(DRS). The Greater than Green finding was discussed in detail in Section 3SO2.b of the subject inspection report.

At your request, a regulatory conference was held on January 18, 2012, to discuss your views on the issue. During the conference your staff described your assessment of the significance of the finding and the corrective actions taken to resolve it, including the root cause evaluation of the finding. A partial list of attendees at the conference is included in Enclosure 1.

After considering the information developed during the inspection and the information you provided at the regulatory conference, the NRC has concluded that the inspection finding is of at least low to moderate security significance, is appropriately characterized as Greater than Green, and will require supplemental NRC inspections. Further details regarding the NRC's assessment of the information provided during the regulatory conference, determination of the final significance, and assessment of the appropriate security action matrix column can be found in Enclosure 2.

Enclosures 2 and 3 Contain Sensitive Unclassified Non-Safeguards Information. Upon separation, this cover letter is decontrolled.

M. Schimmel -2-

You have 30 calendar days from the date of this letter to appeal the staff's determination of significance for the identified Greater than Green finding. Such appeals will be considered to have merit only if they meet the criteria given in NRC Inspection Manual Chapter 0609, "Significance Determination Process," Attachment 2. An appeal must be sent in writing to the Regional Administrator, Region III, Suite 210, 2443 Warrenville Road, Lisle, IL 60532.

The NRC has also determined that a violation was associated with the finding, as cited in the Notice of Violation (Notice) provided in Enclosure 3. The circumstances surrounding the violation were described in detail in NRC Inspection Report Nos. 05000282/2011405(DRS); 05000306/2011405(DRS). In accordance with the NRC Enforcement Policy, the Notice is considered escalated enforcement action because it is associated with a Greater Than Green finding.

The NRC has concluded that information regarding the reasons for the violation, the corrective actions taken and planned to be taken to correct the violation and prevent recurrence, and the date when full compliance was achieved, is already adequately addressed on the docket in NRC Inspection Report Nos. 05000282/2011405(DRS); 05000306/2011405(DRS) and during the regulatory conference. Therefore, you are not required to respond to this letter unless the description therein does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html. However, because the material in Enclosures 2 and 3 is considered security-related information, as defined in 10 CFR 2.390(d)(1), its disclosure to unauthorized individuals could present a security vulnerability. Therefore, the material in these enclosures will not be made available electronically for public inspection. Additionally, if you choose to respond and security related information is necessary to provide an acceptable response, please follow the instructions for withholding in 10 CFR 2.390(b)(1).

M. Schimmel -3-

In accordance with 10 CFR 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements for your response, if any.

Sincerely,

/RA/

Cynthia D. Pederson Acting Regional Administrator

Docket Nos. 50-282; 50-306 License Nos. DPR-42; DPR-60
