

## RUBI MEETING AGENDA - 09/08/05

**Purpose:** To agree on the rationale/applicability of the proposed changes and path forward to completing the proposed rule package.

### Topics for Discussion:\*

- Address Working Group Comments ongoing throughout the meeting
- Annual Dose Report to Workers
  - Exemption for minors and declared pregnant women
  - Remove reference to 2 percent reference to threshold criterion
  - Resolve issue on the cumulative annual dose received from work activities at a single versus all (multiple) licensee facilities during the year.
- Definition of TEDE
  - Need to agree on rationale for change and develop supporting text
- Labeling Containers
  - Need for an activity threshold
  - Exemption in Part 20 or Part 50
  - Apply to all licensees or just Part 50 licensees
  - If applied only to reactors, then a rationale needs to be developed for FRN and RA
- Cumulative Occupational Radiation Dose
  - Duplication of requirements to obtain exposure history and Form-4 for planned special exposures.
  - C. Mattsen concern on 20.2104(b) being more limited
- Revise the title of the rulemaking
- Proposed rule language issues
  - C. Jones comments on language
  - Working group agreement on the rule language

### Future Near-Term Issues:

- Regulatory Analysis development
- Environmental Assessment development
- OMB Package development
- CRGR Package development

\*Issues raised by C. Jones will be discussed first because she has to leave during the first hour of the meeting.
