RE: Fletcher Allen Health Care
License # 44-10187-03 03003289
License # 44-10187-04 03032667

We request that Mr. James Goodwin, M.S. be authorized as interim Radiation Safety Officer both licenses for the period April 6 through May 2, 2012. This is due to an extended vacation outside the country by Marleen Moore, M.S.

Mr. Goodwin is currently an Authorized Medical Physicist on the medical license. He was the interim RSO prior to the hire of Ms. Moore in 1989. He is familiar with all uses of radioactive materials on the license.

Mr. Goodwin is also duly authorized for access to both information and physical access for License # 44-10187-04.

Thank you for your attention to this. If additional information or if you have questions please contact Marleen M. Moore, M.S., Radiation Safety Officer, at (802) 847-3506 or marleen.moore@vtmednet.org. All correspondence should be copied to Marleen Moore, M.S., ACC Garden Pavilion.

Sincerely,

John Brumsted, M.D.
Interim CEO

Marleen M. Moore, M.S.
Radiation Safety Officer

Date: February 10, 2012

To: James Goodwin, M.S.

From: John Brumsted, M.D. Interim CEO/President, Fletcher Allen Health Care

Subject: Delegation of Authority

This is to confirm your interim appointment as Radiation Safety Officer for the Fletcher Allen Health Care medical use license and blood irradiator license for the period April 6, 2012 through May 2, 2012. You are responsible for ensuring the safe use of radiation. You are responsible for managing the radiation protection program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. You are required to notify management of situations where staff are not cooperating and not addressing radiation safety issues. In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend approximately 35% of your time conducting radiation protection activities.
