Region 1
475 Allendale Road
King of Prussia, PA 19406-1415

Gentlemen:

03015161

The purpose of this letter is to request an amendment to our NRC Materials License No. 47-10136-03. In the near future we will be purchasing two new devices and need an addition to our license as follows:

Isotope	Chemical or physical form	Maximum amount to be possessed
6.C. Cesium-137	7.C. Sealed sources. Ohmart Model A-2102.	8.C. Two sources. 200 millicuries total with no single source to exceed 100 millicuries (3.7 GBq).

9.C. To be used in Ohmart Vega Models SR1A fixed gauging devices for controlling industrial processes.

All other conditions of the license should remain the same. Procedures, statements, representations, etc. previously submitted will also be applicable to these new gauges.

If you have any questions or need additional information, please contact me at (304) 665-3643 or

Sincerely,

Bruce Valentine
Radiation Safety Officer

576966

This is to acknowledge the receipt of your letter/application dated

2/9/2012, and to inform you that the initial processing which includes an administrative review has been performed.

☒ Amendment (47-10136-03)
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

☐ Please provide to this office within 30 days of your receipt of this card

A copy of your action has been forwarded to our License Fee & Accounts Receivable Branch, who will contact you separately if there is a fee issue involved.

Your action has been assigned **Mail Control Number** 576966.
When calling to inquire about this action, please refer to this control number.
You may call us on (610) 337-5398, or 337-5260.
