Dear Mr. Baskin:

SUBJECT: AMENDMENT APPLICATION NO. 126 - DIESEL LOADING AND FAST STARTS
(TAC NO. 60370)

This is in regard to Amendment Application No. 126 dated February 14, 1985, which requested changes in diesel engine loading and fast starts.

The change in diesel loading was approved by Amendment No. 95 issued on July 3, 1986, and is now superseded by Amendment No. 104 issued on July 22, 1988. The matter of fast and slow engine starts was also resolved by Amendment No. 104 which contains a license condition and technical specifications on this issue.

NRC action regarding Amendment Application No. 126 is therefore complete.

Sincerely,

original signed by

Charles M. Trammell, Senior Project Manager
Project Directorate V
Division of Reactor Projects - III,
IV, V and Special Projects
